**PRESS RELEASE - 5 OCTOBER 2005**

## **ALLIANCE FOR CHANGE CONVENOR INVITED TO WASHINGTON DC**

One of the most serious symptoms that compel the diagnosis that our democracy is *broken* and needs to be *mended*, is the growth of the industry, at home and abroad, of the abuse of civilians' human rights, by those armed with neuro-electromagnetic weapons. Dr Caroline Lucas MEP wrote in 2004 about this badly under-publicised issue, as follows:

**Electro-Magnetic (EM) weapons are one of the newest and most serious military developments in the world today. Enormous secrecy surrounds their development ... Unless this development is stopped, we are entering an Orwellian '1984' type scenario, which could potentially permanently transfer enormous power to those in control of the technology. ... We regard the unsuccessful attempts in the 70s ... to have these weapons controlled by a UN Convention as having been a major missed opportunity, which has now led to a new arms race in this field. We have sought to renew the attempt ... to outlaw these weapons and the research that leads to them, primarily that concerning external manipulation of the human central nervous system.**

This is an issue which has concerned John Allman, founder and convenor of The Alliance For Change, for many years now.

The issue is covered in **European Parliament Resolution A4-0005/99, Paragraph 27**. The European Parliament wanted such weapons to be *banned*, six years ago. Nowadays, so does John Allman. So should *everybody*. However, the present British government is on record (in writing) that it doesn't *want* such weapons to be banned, or even for them to be publicly *discussed*.

Please see: <http://www.sysos.co.uk/BritGovCorresp.htm>.

One example of a neuro-electromagnetic weapon is documented in the US Army's Military Thesaurus, at:

[http://call.army.mil/products/thesaur\\_e/00016275.asp](http://call.army.mil/products/thesaur_e/00016275.asp).

There are more varieties of such weapons than just this one chilling example.

**On Friday 7 October 2005, in Washington DC, there will be a private meeting with certain US Senators, to which Mr Allman is an invited guest. The following day, a public rally is planned at the Vietnam Memorial, on the Saturday, which several speakers will address, including (God willing) Mr Allman himself and, it is hoped, one or more Senators and/or Congressmen.**
